POWERING SCHOLARLY ANALYTICS

Congratulations on being named a 2024 Top Scholar by ScholarGPS

Dear Dr. Chou,

ScholarGPS recognizes Top Scholars for their outstanding performance in various Fields, Disciplines, and Specialties. Your strong publication record, the impact of your work, and the notable quality of your scholarly contributions have placed you in the top 0.5% of all scholars worldwide according to the most recent 2024 ScholarGPS rankings.

View your scholar profile and rankings

Listed below is a summary of the areas (and your ranking in those areas) in which you have been awarded Top Scholar status based on your accomplishments over the totality of your career (lifetime) and/or over the prior five year period:

Top Scholar - Lifetime

#53,343	Overall (All Fields)
#8,316	Engineering and Computer Science
#588	Civil and Environmental Engineering
#22	Metaheuristic
#71	Expert system
#214	Machine learning
#224	Energy consumption
#241	Partnership
#949	Artificial intelligence
#1,924	Mathematical optimization
#7,008	Energy

Top Scholar - Prior 5 Years

#14,370	Overall (All Fields)
#5,807	Engineering and Computer Science
#645	Civil and Environmental Engineering
#25	Metaheuristic
#495	Mathematical optimization
#1,098	Machine learning

This year's rankings are based on the ScholarGPS database of over 30 million Scholar Profiles and 120,000 Institutional Profiles from which we derive the following ranking data:

- Highly Ranked Scholars

- Institutional Rankings
- Top Scholars by Expertise
- Top Scholars by Institution
- Top Scholars by Country
- Highly Cited Publications

These rankings highlight the most influential scholars, research institutions, and important publications in various Fields, Disciplines, and Specialties, providing valuable insights into academic and scholarly research excellence for long-term (lifetime) and prior five-year time periods. ScholarGPS recognizes two categories of scholarly excellence:

- **Highly Ranked Scholars™**: Distinguished scholars who rank in the top 0.05% globally; and
- **Top Scholars**: Those whose scholarly contributions rank them within the top 0.5% of all scholars worldwide

If you have not done so already, please register with ScholarGPS and claim your profile free of charge. To register, click the "Register" button at the top right of the https://scholargps.com homepage and follow the instructions. After you have registered, click the "Claim" button at the top right of your profile page and follow the instructions. If you register using your institutional email address, you can automatically claim your profile. Otherwise, you will need to complete a simple request form to claim your profile. For additional information about registering and claiming your profile, see the ScholarGPS FAQ.

ScholarGPS provides the first fully quantitative rankings of all scholars, research institutions, universities, and academic programs worldwide. ScholarGPS performs each of these rankings across 14 broad Fields (such as Medicine, Engineering, or Humanities), 177 Disciplines (such as Surgery, Computer Science, or History), and over 350,000 Specialties (such as Cancer, Artificial Intelligence, or Ethics). These rankings are based on our unique quantification of research productivity (archival publications counts), impact (citation counts), and quality (h-index), thus establishing unmatched benchmarks completely independent of subjective judgments. Scholars are ranked in four categories: Overall (All Fields), in their Field, in their Discipline, and in their Specialties.

In addition to providing the preceding unique rankings, ScholarGPS provides detailed profiles for each of over 30 million scholars and 120,000 research institutions, including over 24,000 academic institutions in more than 200 countries. Profiles for each Field, Discipline, and Specialty are also available.

Again, congratulations for being honored as a ScholarGPS Top Scholar.

Best regards,
The ScholarGPS Team

ScholarGPS is a California-based company that applies artificial intelligence, data mining, machine learning, and other data science techniques to its massive database of over 200 million publications and 3 billion citations to rank over 30 million scholars and 120,000 institutions worldwide. For more information about individual scholars, specific institutions, subject matter experts, details of our ranking methodologies and more, visit **ScholarGPS.com**.
